ASA 2026 TECHNOLOGY

TECHNOLOGY FOR PRESENTERS

We recommend presenters have a copy of their materials on a USB flash drive, as well as a copy they can retrieve from the cloud (email, Google Drive, etc.).

Each attendee will have a login generated by IT in advance for public machines on campus. Students or staff volunteers will be present in each area to assist presenters.

MU Classrooms being used for the conference are equipped with HDMI connections to large screen monitors or overhead projectors. Marshall is predominately a PC campus. If you bring your own device, you must bring an adapter if your device cannot connect directly to HDMI. Adapters for connections other than HDMI will not be provided.

Wi-Fi Access

Campus visitors and guests can access the MU WiFi network with instructions provided by IT here: https://www.marshall.edu/it/files/MU-Guest-WiFi.pdf
1. Connect your device to the MU Guest WiFi network.
2. Open a web browser. You'll be directed to the Marshall Sponsored Guest Portal page.
3. Click on the link "Don't have an account?" located below the "Sign On" button.
4. Complete the required fields and click "Register."
5. Sign in to the Sponsored Guest Portal with your MU Guest WiFi credentials.

These accounts are temporary and will expire after the last day of the conference. ASA volunteers will be present to assist if you experience problems accessing the portal or contact IT for assistance at (304)696-3200.

eduroam

Marshall University is also a member of eduroam, a secure, worldwide roaming Internet access service developed for the international research and education communities. Visitors from eduroam partners and Internet2 member institutions can connect to MU's wireless network using their home institution credentials. Check with your home institution to see if they are already members before you visit the MU campus. Access additional information here: https://www.marshall.edu/it/wifi/eduroam/

Printing and Photocopying

The John Deaver Drinko Library will be open during the conference. If conference printing is needed, the library staff will assist ASA attendees at the main desk.
