

Black Focused Sessions

Compiled by Wilburn Hayden, Professor Emeritus and Senior Scholar, School of Social Work,
York University, Canada
wilburnhayden.com

This compilation brings together the various sessions in which Black people were the focal points. It not only illustrates the depth in sessions' content, but serves as an opportunity to reflect on the Association's desire to be inclusive going beyond the commonly held image of Appalachia as White. Finally, this listing can be a resource tool for connecting us to each other's work as we explore ways of examining the Black presence in Appalachia.

The sessions were based on the sessions' titles. Thus, may not include every session at the conference.

Special Event

Friday, 7:00AM-8:00AM. HENDERSON HALL 214 Diversity, Equity, and Inclusion Committee Meeting
