

Resolution in Support of ARC's Use of Funds

The Appalachia Studies Conference applauds recent decisions by the Appalachian Regional Commission to provide financial support to research and action projects of regional scholars and citizens, such as the Council on Appalachian Women, the Appalachian Land Ownership Task Force, and the Appalachian Land Bank Study Group. We urge further and continued responsiveness of the Appalachian Regional Commission to independent citizen initiatives which demonstrate the rights and responsibilities of the people of the region to themselves define and address the region's problems.
